

EGO GEWÄCHSHAUSKIT

is a high quality, softplastic, gunnable putty that is free from asbestos, bitumen, tar, plasticisers, mineral oils and solvents. High quality raw materials guarantee its permanently plastic properties and excellent adhesion to glass, metal, paints etc. **EGO** Greenhouse Putty is stable in volume, easy to apply, does not tend to form cracks and prevents water from penetrating into the joint.

TYPICAL USES

Simple and low-budget glazing of greenhouses and industrial buildings, sealing of glass roofs.

APPLICATION

Apply **EGO** Greenhouse Putty only onto dry and clean profiles that are free from substances liable to impair adhesion. Make sure the external joint has a cross-section of at least 20 x 20 mm. **EGO** Greenhouse Putty forms a skin after about 3 days and does not have to be over-painted. **EGO** Greenhouse Putty is not compatible with bituminous substrates.

TECHNICAL DATA

Properties	Result
Density	approx. 1.9 g/cm ³
Application Temperature	+ 5° c to + 30° C
Service Temperature	approx. - 30° C to + 80° C
Consistency	softplastic
Method of Application	with EGOFIX Compressed Air Gun
Rework	with dampened tool
Secondary Treatment	Smooth carefully with a moist tool. We recommend to over-paint the putty with a weatherproof paint once it has formed a solid skin.

AVAILABILITY AND STORAGE

Standardfarbe	dark brown
Packaging	70 mm Ø foil bags, 15 kg/box 50 mm Ø foil bags, 10 kg/box 25 kg bucket Special packaging upon requested.
Storage	Store in cool and dry conditions in closed original packaging. Shelf life 12 months
